

A VOICE FROM THE PULPIT.

Rev. Jacob D. Van Doren, of 57 Sixth street, Fond Du Lac, Wis., Presbyterian clergyman, says: "I had attacks of kidney disorders which kept me in the house for days at a time, unable to do anything. What I suffered can hardly be told. Complications set in, the particulars of which I will be pleased to give in a personal interview to any one who requires information. This I can conscientiously say: Doan's Kidney Pills caused a general improvement in my health. They brought great relief by lessening the pain and correcting the action of the kidney secretions."

Fifteen Thousand Violin Makers.

The only place in the world where violin-making may be said to constitute the staple industry is Markneukirchen, in Saxony, with its numerous surrounding villages. There are altogether about 15,000 people in this district engaged exclusively in the manufacture of violins. The inhabitants, from the small boy and girl to the wrinkled, grey-headed veteran and the aged grandmother, are employed throughout the year in making some part or other of this instrument.

Why Czarewitch is Alexis.

It has been a tradition since the time of Nicholas I to name the czarewitches alternately Alexander and Nicholas. But the murder of Alexander II caused his name to be considered unlucky, so there will be no more Alexanders on the Russian throne, as there will be no more Pauls or Peters. The czarewitch was therefore named Alexis, after the father of Peter the Great.

The telescope will be used chiefly for photographic work.

Hunters Dress Like Joseph.

The notion that hunters should wear green attire to escape notice by animals is no longer considered tenable. In Scotland the hunters wear a dress of many colors. Experiments made in the British army have also shown that guns and ammunition wagons or hills most easily escape detection if they are painted blue, red and yellow.

The reason W. L. Douglas \$3.00 shoes are the greatest sellers in the world is because of their excellent style, easy fitting and superior wearing qualities.
